FAFSA- FREE APPLICATION FOR FEDERAL STUDENT AID

The Free Application for Federal Student Aid (FAFSA) is currently available for parents and students, however, it is in a "soft launch period," meaning that there may be times that the FAFSA is unavailable online. FAFSA applications will not be processed until the end of January, which will allow ample time for parents and students to complete the application. Stay tuned for our upcoming financial aid workshop at the end of the month, which will allow families to receive assistance in filling out the FAFSA from a local college. Students do NOT need to be attending that college in order to attend the workshop. To start the FAFSA application, please visit studentaid.gov.
