

The Addison Central School District and Armstrong Telephone have partnered to offer WiFi access sites to families during school closings. These are drive-up sites that can be accessed in the parking lot at each location; parents and children are asked to remain in their vehicles while using the internet. These locations will be available beginning on Monday, March 23:

- **Addison Community Center, 13 Community Drive, Addison**
- **Woodhull Town Hall, 1585 Academy Street, Woodhull**

In addition to the Armstrong hot spots, **families are invited to connect to guest internet access at all Addison school parking lots**, available immediately.

To connect, select the "ACSD Guest" WiFi network and use the following credentials:

Username: guest

Password: Addison3#
